About me

Frontend Developer who likes to build things and come up with technology solutions. Passionate about the  mental challenge of creating and using code to solve problems.
 Skilled in HTML5, CSS3,  jQuery, bootstrap, firebase and JavaScript. Strengths in communication and working with others. Educated in Northwestern for coding with an Associate's degree in economics.
The combination of my technical expertise and emotional intelligence make me a unique team member who would add value and efficiency to your team.
